

## ARMY DRAWING TOMORROW MORNING

## RUSSIAN CAPITAL MAY BE MOVED TO MOSCOW

### HUMAN LOTTERY PLAN EXPLAINED TODAY BY CROWDER

Provost Marshal General Tells How the Numbers Will be Selected

GELATINE CAPSULES WILL BE USED

Two Sets of Numbers, One From 0 to 10, Other From 1 to 1,000

HOW THE DRAFT WILL BE REPORTED FROM WASHINGTON.  
The International News Service will carry the selective draft drawing direct from the capital at Washington as fast as the numbers are made available by Provost Marshal General Crowder. It will carry first master numbers, from 0 to 10. These master numbers will show the order in which each sub-division of the red numbered cards are to be called. For instance, should 7 be the first master number drawn all persons holding red numbers from 7,000 to 7,999 would be the first drafted. The master numbers will be drawn in sequence until all are recorded. When these are all recorded, the drawing will proceed to the individual. Then 1,000 numbers will be drawn out and recorded. This will show the exact order in which each individual card in each master list is to report for examination. Thus there will be carried one set of 10 numbers and one set of 1,000 numbers, making 1,009 in all.

(International News Service.)  
Washington, July 19.—The draft of the national army will be held in room 226, senate office building, at 9:30 o'clock tomorrow morning. It was announced this afternoon.

### WOODMEN TO LOAN FARMERS MONEY

HUTSON RESOLUTION GOES THROUGH, HE IS ADVISED BY WIRE.

The Woodmen of the World in their national camp at Atlanta voted after a hard fight to place their \$30,000,000 reserve fund at the pleasure of the farmer so that any farmer member of the Woodmen may borrow money at a low rate of interest from this fund, according to a telegram received here by Melvin Hutson today from S. B. Slighter and H. K. Dickinson, delegates from Alabama.

The telegram reads:

Melvin Hutson,  
Decatur, Ala.  
Passed farm loan law after all day fight.  
S. B. Slighter and H. K. Dickinson

At the last state convention of the Woodmen held at Dothan, Attorney Hutson had the pleasure of introducing a resolution which passed the convention requesting the national convention to pass such a law.

### WAGON TORN UP.

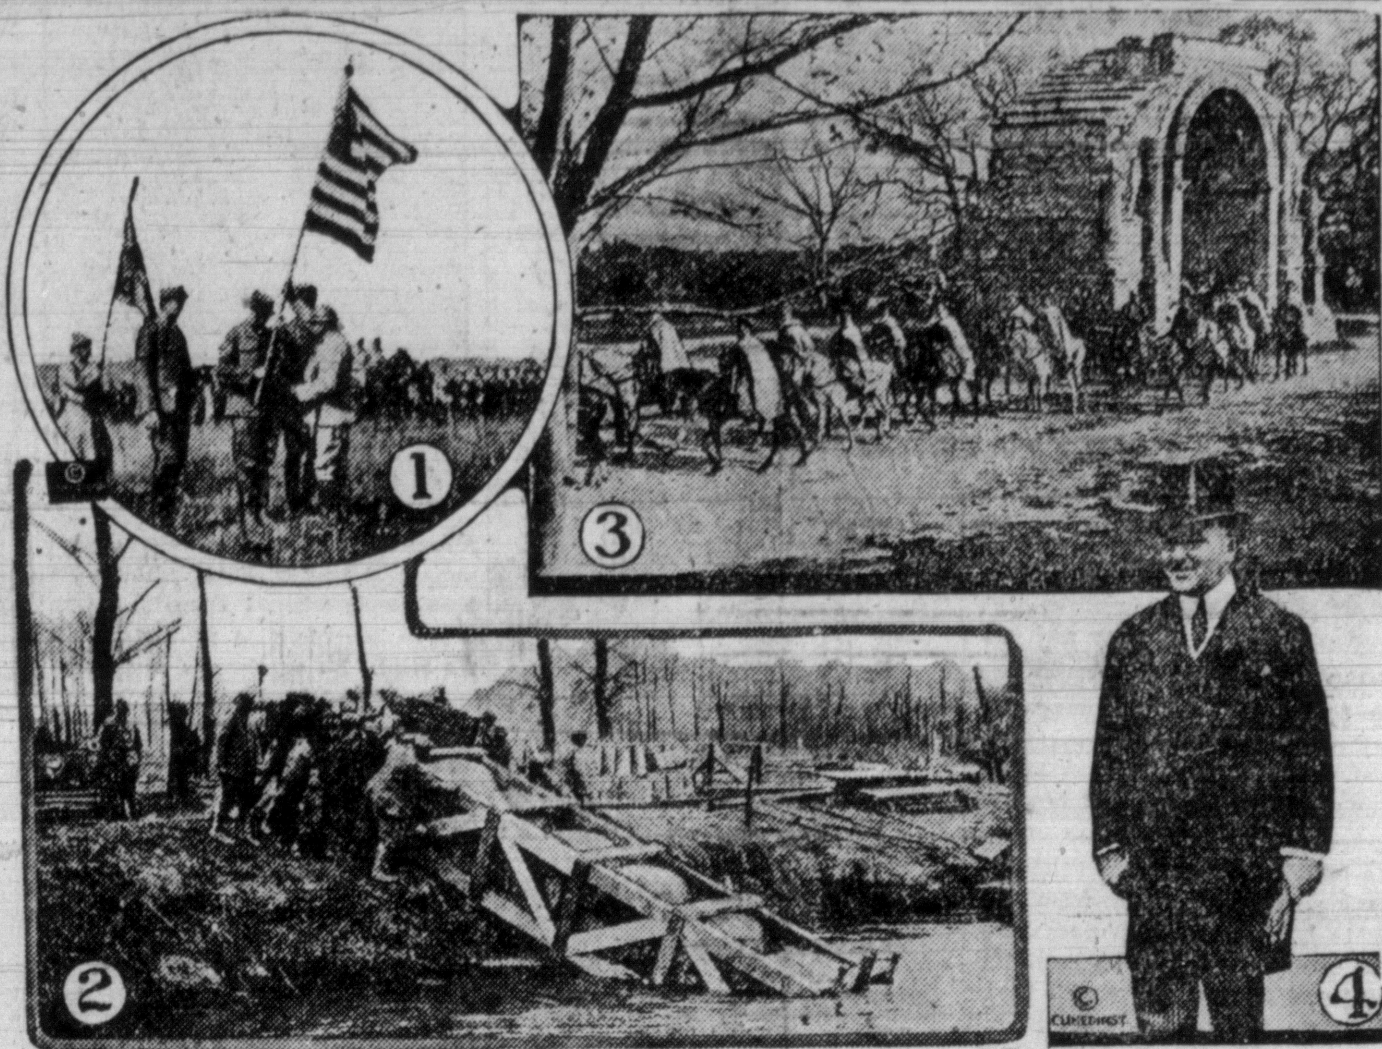

A horse belonging to the Dillehay Grocery Co., became frightened and ran away this morning on Fourth avenue. Beyond tearing the delivery wagon to pieces no damage was done.

### RED CROSS MEETS.

The Albany division of the American Red Cross will hold its regular meeting this afternoon at 4 o'clock at the Y. M. C. A.

### WILSON PARDONS WOMEN; SUFFRAGE A WAR MEASURE

(International News Service.)  
Washington, July 19.—President Wilson at noon today pardoned the 16 suffragists sentenced to 60 days in the workhouse, after trial for picketing with banners in front of the White House.  
President Wilson today is seriously considering making woman suffrage an administration war measure. He is convinced that an emergency exists which may demand the immed-

1—General Mangin's troops marching past the first American flag officially sent from the United States to the French front. 2—French engineers launching a bridge, the frame of which is filled with casks for buoyancy. 3—Troop of Spahis cavally passing through the old gates of St. Kemy in the Marne district. 4—Boris A. Bakhtineff, special envoy at the head of the Russian mission now in America.

### U. S. May Go After The Subs

(International News Service.)  
Washington, July 19.—President Wilson will decide whether the United States will attempt a general offensive against German submarines. The plans for such action, prepared by the general staff of the navy, is now before the president. It is admitted there is no information to show whether such an offensive if undertaken would succeed, but the increased loads that the submarines are making into the reserve supply of the world's shipping makes it necessary that something be done at once to check the U-boats.

### TEACHER'S EXAMS HELD AT HARTSELLE

CLASS OF FORTY-THREE EXAMINED. SEEK CERTIFICATES AS PEDAGOGUES.

Forty-three teachers, or teachers-to-be, took the state teachers' examination at Hartselle Monday, Tuesday and Wednesday of this week. One was for life grade, six for first grade, 16 for second grade and 20 were for third grade.

Supt. Tidwell stated that 43 is a large number considering the fact that so many teachers are out of the county attending summer schools, and also considering the added duties teachers will have next session on account of compulsory attendance. However, most of those taking the examination were school boys and girls.

### Contracts are Let For Alabama Camps

(International News Service.)  
Washington, July 19.—The war department today announced contracts for the building of three national guard concentration camps have been awarded as follows: "W. E. Hampton & Co. of Los Angeles, the Linda Vista, Cal., camp; John Ochisholm & Co. of New Orleans, the Anniston, Ala., camp; Algon Blair, of Montgomery, Ala., the Montgomery camp.

### No Seat For Uncle Sam at War Table

(International News Service.)  
Washington, July 19.—The state department let it be known today that the United States will not be represented at the coming allied conference in Paris.

### CARRANZA WANTS EMBARGO LIFTED

WOULD ALSO LIKE TO BORROW SOME GOOD UNITED STATES MONEY.

(International News Service.)  
Washington, July 19.—Representatives of the Carranza government in Mexico are in Washington today making a determined and organized effort to get the embargo on exportation of arms to Mexico lifted entirely or at least modified. The same group is doing its utmost to get the federal government here to make a loan to Mexico or to give its sanction to a loan subscribed by a syndicate of American bankers.

### Fame of Albany Broom Factory is Spreading Abroad

The fame of the Albany Broom Factory is spreading abroad. Following the publication in the Albany-Decatur Daily of an article regarding the purchase of broom corn by the local plant, the "Broom Maker" of Chicago, published the following item of information to the trade:

The Albany Broom Factory has bought from William Fenway, a farmer living south of Decatur, Ala., a lot of broom corn, paying 15 cents a pound for it. This is equivalent to \$300 per ton.

The article fell under the eyes of a broom manufacturer in southwestern Arkansas, many hundreds of miles from here, who wrote to Manager Weaver of the local plant, making inquiry regarding the stock of broom corn here, and if any more was for sale.

### Premium Peach Raised in This City

A monarch peach of excellent quality was raised by Capt. Fred Vassault on his property on Grant street, and shows what can be done on a tree three years old. The peach weighs 12 ounces and is 11 inches in diameter, and is one of several grown on the tree this year.

### RUSS ARE TRYING FOR COMPROMISE; MARTIAL LAW RULES

Coalition Cabinet May be Formed and Present Differences Settled

(International News Service.)  
Stockholm, July 19.—A Petrograd dispatch said that the Russian cabinet had been convened in special session today to consider removal of the capital to Moscow.

(International News Service.)  
London, July 19.—With Petrograd under martial law and agitators threatening to attempt a counter revolution, efforts are being made to form another coalition government, said a dispatch from the Russian capital today. There is definite evidence that agents in the pay of the German government have been at work among the troops in the Petrograd garrison stirring up mutiny, and among the members of the council of workmen's and soldiers' delegates fomenting unrest.

(International News Service.)

Amsterdam, July 19.—Chancellor Michaelis' speech in the Reichstag setting forth his policies is being awaited by the German people with great calmness, said a Berlin dispatch today.

German political leaders show intense interest in that phase of the chancellor's declaration relating to peace, but there was no excitement on the part of the masses, the telegram added.

One report from the frontier said the liberal leaders had been won over to a conservative platform. Another said that they were uncompromising and that the conservatives were threatening to offset the inter-party peace resolution with another calling for a "Hindenburg peace."

One dispatch quotes socialist newspapers to show that the reform element is willing to wait for constitutional changes, and that the Kaiser's rescript calling for equal suffrage in Prussia had made a good impression.

(International News Service.)

Washington, July 19.—The administration won a decisive victory this afternoon in its drive to eliminate all commodities except foodstuffs and fuel from the food control bill, when the senate by a vote of 44 to 28 rejected an amendment offered by Senator Kenyon to retain iron and steel and their products, farming tools, hemp and binder twine, in the list.

### Negro Snipers Fire Into White Homes

(International News Service.)  
East St. Louis, July 19.—A whole neighborhood here is under special police and military guard today, following the action of negro snipers who fired shots into lighted windows of homes of white people last night.

MARRIAGE LICENSE.

Frank P. Irwin and Miss Ima T. Pulliam.  
Floyd Q. Jacobs, of Hartselle, to Miss Bertha L. Wade of Somerville.

### Daily Has Arranged Quick Facilities For Receiving Numbers Men Drafted

Result of the Capsule Lottery Will be Flashed Over Wires by International News Service

Owing to the vast interest in the drawing of the numbers of the men who will compose the new army, the Albany-Decatur Daily has arranged, through the International News Service, to secure the numbers as soon as they are drawn. The result of the drawing will be flashed to the Daily a few minutes after it is announced at Washington, and will appear in our regular issue of that day. The names that correspond with the numbers will be obtained from the Morgan county exemption board, and will also be published. Every registered man should go to the courthouse and ascertain his "red ink" serial number, just for his own information, and to be sure that there is no error in publication.

## THE SOLID SOUTH SUNDERED.

If the powder manufacturers and their friends, the fertilizer manufacturers, really hoped to prevent the federal government from erecting a gigantic plant for the fixation of atmospheric nitrogen, they seem to have accomplished their purpose. It has been subtly and effectively done by the dissensions that have arisen in the South, over the location of the proposed plant and the disposition on the part of southern delegations to relax in their united support of the Muscle Shoals location, the only one regarding the merits of which there was no room for argument—and to fight sharply and alone for some hundred of sites that are in the running merely because they want a slice of pie.

Already, Senator Shields of Tennessee, following the supposed report of the inter-departmental board naming eleven available locations, has transferred his allegiance to the Holston river in Tennessee. The Birmingham and Tuscaloosa congressmen are fighting for the Warrior, while Alabama's senators are standing by their convictions and continuing in their support of Muscle Shoals. The Tuscaloosa News has begun to cry "dog in the manger," despite the fact that the greed of the section that it represents was partly responsible for the failure to recommend the all-southern site on the Tennessee river that had the backing at one time of nearly all the "Solid South."

The Birmingham Ledger, too, is whooping it up for the Warrior and its steam plant, losing sight of the overwhelming fact that the major portion of the \$20,000,000 appropriation is given to the treasury, and that farmers of Alabama and every other southern state have been deprived of their right to buy cheap fertilizers. It is very apparent that the limited vision of some of Alabama's newspapers is able to discern only the possible expenditure of a million or two dollars in their section. They are unable to appreciate the soundness of the slogan, "The greatest good for the greatest number."

The South is "solid" only as it goes to the ballot box. Whenever a dollar looms above the horizon men who should be patriots degenerate into scramblers. The location of the nitrate plant is a splendid illustration of the existence of this spirit of petty selfishness. Let the war be lost, let Chile continue to have a monopoly of the world's nitrates, let the nation go to the bow wows, but be sure to put some little gaudy toy into our stocking. This is what the South whippers behind its hand. And the powder trust and the fertilizer bund grow richer and more powerful.

## A CITY PARK.

Dr. Persinger's suggestion to the council Tuesday night that the city of Albany should open a public park, was extremely timely. Action of this kind should be taken now, before the available sites are cut up by streets or are dotted with residences. The need of parks and playgrounds is recognized by every municipality, yet few of them have the foresight to lay out a park system in their early years when suitable property is cheap and easily obtained. Parks are as essential as streets. The city child needs room to romp and play. The public thoroughfares, often crowded with vehicles, are dangerous playgrounds.

Our friends of the Black Warrior seemed to be puffed at the Alabama Power Company because it passed up that rivulet and centered its interest on Muscle Shoals some years ago, prior to the action of congress in determining to locate a nitrate plant. The Alabama Power Company is a business concern and its engineers know water power sites when they see them. They don't propose to dam the clouds and have them sluice just enough of the aqua pura to keep the wheels turning, nor do they expect to place their trust in bored wells or in providence.

It was inevitable that the return of the skating fever should populate the sidewalks with tots on rollers. The city officials should see to it that the ordinance forbidding skating on the sidewalks is enforced. They should also make it a point to round up bicyclists who are too languid to keep to the streets.

Give a dollar to the hospital fund. It is far more economical to help maintain a hospital here than it is to patronize one in Nashville or Birmingham. A dollar won't pay interest on the railroad fare to one of the city hospitals.

Now that the inter-departmental board has recommended a steam plant for the fixation of atmospheric nitrogen, it is easy to understand why the Black Warrior site was considered. They won't have to bank the boilers there, not even in high water.

Some enthusiast in Birmingham is trying to start a popular subscription for the purpose of purchasing a "line" of one steamboat or self-propelled barge for service on the Warrior. Great stream that!

Apparently the avenues of communication on the battle front are still open to the allies. Otherwise, there might be a concerted attack from all fronts by accident.

If water power sites are ever needed in the Desert of Sahara, a certain Tuscaloosa engineer is recommended to find them.

The Muscle Shoals powder plant hasn't exactly blown up, but it seems to have been submarined.

This week's rains were worth more to North Alabama than the location of the nitrate plant at Muscle Shoals.

Senator Bankhead's "baby"—the Warrior River—is rather undersized for its age.

General Sherman might have said the same thing about politics.

## Expresses Thanks to Hospital Nurses

B. O. Sims, clerk in the Decatur postoffice, in a letter today, expressed his thanks to the nurses of the Benevolent hospital for the many kindnesses they showed his wife following her operation. His letter follows:

Decatur, Ala., July 18, 1917.  
To the Nurses of the Benevolent Society Hospital:

Please accept my many thanks for the kindness and courtesy shown my wife while at your hospital. I cannot fully express my appreciation for the same.

With the assurance that each and every one of you holds a warm place in my heart, I am,

Yours gratefully,

B. O. SIMS.

## Eyster Building Ready By Jan 1

Judge John C. Eyster to Erect Office Building on Johnston Street.

The "Eyster Building," Albany's newest office structure, will be ready for occupancy by January 1, and perhaps sooner. Judge John C. Eyster announced today that he had concluded to erect the building at once, and the work of excavating for the foundation is already nearly completed.

The building will be two stories in height, with a 25-foot frontage on Johnston street. It will stand next door to the Masonic theatre. It will be occupied as law offices by the firm of Eyster & Eyster, and the additional offices will be rented. The structure will have all modern conveniences and facilities, and will cost several thousand dollars. It will be of handsome architectural design.

Business or professional cards, printed or engraved. The Daily.

## The Hospital Differentiates Christianity From Other Religions

The hospital is not as old as humanity, though suffering is. Religion is as old as is our race, but the hospital is an innovation. A study in comparative religions reveals that in creed and doctrine all religions are strikingly similar. For instance, Confucius, a thousand years before the Christian era, stated the golden rule. The fact that the great Chinaman stated it negatively is significant, however, and also that Christ stated it positively. The former said: "Do not do unto others as you would not be done by."

Christ commands: "As ye would that men should do to you, do ye even so to them." All religions contemplate the good of mankind. All religions teach a strict morality. All religions demand self sacrifice. But all religions save ours, teach self sacrifice, etc., as goods or benefits to the one who sacrifices or serves. Christianity alone teaches sacrifice of self for the good of others. In this lies the secret of the historical fact that no religion save Christianity, has created a house, much less filled it with trained nurses for the easing and relieving and curing of suffering humanity. Of Christ alone is it recorded that "He went about doing good."

And because He persisted in it accounts for the great opposition He had. Today there is no opposition to His followers doing good in the same way Christ did. This marks a great advance of humanity in its attitude toward itself. No longer can religious leaders "devour the substance of widows." But now no man, much less a woman, can stand complacently by and see the suffering of his fellows.

The most significant thing in the present campaign for the Benevolent hospital is the cordial reception that is everywhere accorded those who are soliciting for the hospital fund. The campaign is being welcomed. If there are any who cannot give they are profuse and sincere in the reasons they give. Always it is their own need that stands in the way.

## Another Royal Exile

What must that bleary anachronism, "the old-time politician," think of the perils that are closing in on his patron, King Alcohol? It is only a few years since the "liquor interests" were the master hand in politics. They elected or defeated senators and congressmen, bullied national conventions, wrote their own planks in party platforms, controlled the government of all the big cities. The corner saloon was the political rendezvous of every neighborhood, the corner saloon keeper its political oracle. The candidate for office traveled nightly from barroom to barroom. His picture hung in the tavern window. His most important speech was: "Boys, this is on me." In most of the boards of aldermen and state legislatures the retailer of the disastrous anodyne was the dominating influence. The political boss of the principal city of the Middle West was a saloon keeper, his barroom was the meeting place of legislators and corporation agents, and he made and unmade mayors and governors. The saloons became so numerous in one town that a humorist proposed an ordinance in the common council forbidding the erection of a church within two hundred feet of any established barroom! Public men were driven from office for opposing increased license fees. The public departments were practically in the control of the whiskey men.

Today, even in the states where there has been no temperance legislation, the saloon is no longer a political meeting place, the saloon keeper no longer an authority in politics. Even Tammany Hall rejects him. No party would nominate him for office. A candidate would as soon think of going into a Chinese laundry for votes as into a saloon. Even the police have begun to look upon liquor dealing as something akin to crime and the saloon keeper as a potential criminal. He retains a little remnant of his old power in the more evil corners of the big cities, but in these rat holes he controls only the votes of the dust and sweepings of humanity.

Old King Alcohol has been slipping from his throne. No more than a good push is needed to get him out altogether. He will be little regretted. His reign was cruel, his benevolence hypocrisy, his courtiers hired men. He was like the Kaiser, who once said that "he had no friends, only dupes." He will make a shabby figure even among the "Nickies" and "Tinos" and the other impostors who form the nucleus of what we hope will be, before the war is over, a thoroughly representative colony of kings in exile.—Collier's Weekly.

## Lawrence County Hit By Rain Yesterday

Lawrence county, which was slightly in the general rains that fell in Morgan county Tuesday, had a good rain yesterday, according to Circuit Clerk W. B. Jackson of that county. He stated that wind and hail came with the rain, but not enough to damage the crops.

Tilted Block of Earth's Crust. El Salvador is the smallest of the American republics. Its population of 1,700,000 is closely packed in its 7,275 square miles. It really is a tilted block of the earth's crust. Now and then the crust settles down a little, or rises a little more, and buildings crush. Or the earth may split open at different localities, gulp down houses and human beings and close again. When this happens the slumbering volcanoes are provoked and in their anger vomit forth fire. Again it may be only a slight shift of some part of the earth which releases a large volume of water imprisoned in the yawning crater of a dead volcano. The water splashes down on the liquid lava far down inside the earth and the volcano begins spluttering.

## Nashville Drummer Fit as a Fiddle

L. F. SWEENEY TELLS REMARKABLE STORY OF "EATS" THAT THEY HAVE ON THE ROAD.

L. F. Sweeney, the well-known Nashville traveling salesman, of West Nashville, Tenn., Route 1, says:

"If there is anything in the world that puts a fellow to the test, it is the kind of 'eats' he has to put up with on the road. You have to eat in a hurry, eat all sorts of meals, and

L. F. SWEENEY.

at all times of the day or night.

"No wonder that even the strogost men will break down under such an unnatural way of living. There have been times when I thought I would simply have to give up my work on the road. No one knows how much I have suffered from poor and irregular meals and broken rest. My whole digestive system was upset. I was continually constipated. After eating I not only would have indigestion, but a swimming in the head, black spots would appear before my eyes, I would bloat. Often I was ashamed to come in contact with my customers.

"But the tide has turned for me now. I am back on the road, and on the road to complete recovery, too! And I owe it to Vin Hepatica—nothing else. I am on my second bottle of it now and feel as fit as a fiddle. I go to bed and sleep as soundly as a baby all night. I wake up feeling refreshed and go about my work with my old time energy. I can even eat sauerkraut and spare ribs."

Vin Hepatica is matchless tonic for regulating the bowels and building up the entire system.

Thompson's Drug Store, Albany, Ala.

## City Sells Its Bonds

W. J. Nesbit, of Decatur, Will Handle \$125,000 of Athens' Street Improvement Bonds.

(Limestone Democrat.)

The city council contracted with W. J. Nesbit of Decatur, last week for the sale of \$125,000 of street improvement bonds and work of improving Athens' thoroughfare is expected to begin Sept. 1st. This will be good news to the people of Athens and all persons who are interested in the town or who have to travel over its streets. The bonds were sold at 95 cents on the dollar and bear six per cent interest. They are the usual improvement bonds, the cost of issuance and improvement being assessed against abutting property. It is understood that Mr. Nesbit represents Selma parties.

The sale of bonds at present was attended with more or less trouble on account of present conditions, hence it is considered that the sale at the price named is a fair one.

It is hoped that work will begin at an early date and that Athenians will not have to pass through another winter with such bad streets as it had the past one.

Tomorrow is the last day to pay your street tax. After tomorrow the tax will be \$4.10 instead of \$2.50. It

## Helps Sick Women

Cardui, the woman's tonic, helped Mrs. William Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to get up. I had such a weakness and dizziness, and the pains were very severe. A friend told me I had tried everything else, why not Cardui?... I did, and soon saw it was helping me.... After 12 bottles, I am strong and well."

## TAKE

CARDUI  
The Woman's Tonic

Do you feel weak, dizzy, worn-out? Is your lack of good health caused from any of the complaints so common to women? Then why not give Cardui a trial? It should surely do for you what it has done for so many thousands of other women who suffered—it should help you back to health.

Ask some lady friend who has taken Cardui. She will tell you how it helped her. Try Cardui.

**JUST A  
LITTLE  
SMILE**

Just for a Change.

"If I were writing a play in which a wealthy married couple had the principal role do you know what I would do?"

"What?"

"I would have them refer to their courtship in Petrograd, Constantinople, or Bucharest."

"But what's the idea?"

"Oh, just to get away from Venice, Fiesole and Monte Carlo, where two-thirds of the married people on the stage seem to have met each other."

Fallen.

"You never can tell what a man will do."

"Maybe not."

"Years ago Dubwaite resisted the bicycle craze."

"Yes?"

"He refused to neglect his business when the tango became all the rage."

"An unusual character."

"But I've heard lately that he's taking lessons on the ukulele."

Out of The Question.

"From an esthetic point of view, what do you think of the average cabaret?"

"I cannot answer your question," replied Prof. Blinkers.

"Why not?"

"For an obvious reason, sir. It is just as impossible to take an esthetic view of the average cabaret as it is to apply a profound knowledge of the classics to an analysis of soup."

TESTED HUMOR.

Editor—I can't use these jokes. Jokesmith—That's odd. They've been used by all the best papers in this country.

Unscientific Barbarism.  
The savage mind was narrow.  
That's how it came to pass  
Men used a poisoned arrow  
Instead of poisoned gas.

Exception to the Rule.  
Professor—Remember, that the effect is always preceded by the cause! Student—Beg pardon, professor, but in case of a man cutting grass with a lawnmower, the cause follows the effect.

To Get the Liver.

"Where are you going?"  
"To the butcher's."  
"What for?"  
"The doctor has ordered me to wear a liver pad."

On Tour.

Comedian—Did you have good support on your tour?  
Soubrette—We met one kind-hearted old landlady who supported us for two weeks.

Unwritten Language.

Interested Father—Did you tell her how sorry you were to leave her?  
Son—No, but I brought considerable pressure to bear on the subject. I think she understood.

Then It Happened.

"What made you think he would propose to me?"  
"Why, when I refused him he said he didn't care what became of him; but, perhaps, he wasn't serious."

Not Very Comforting.

"Dobbins, the art critic, has roasted my pictures unmercifully."  
"Don't mind that fellow. He's no friend of his own; he only repeats like a parrot what others say."

Started at the Back.

"I've begun to read that novel you loaned me."  
"The first chapter is peculiar, isn't it?"  
"I haven't come to that yet."

Sure is.

"Is your new maid particular with her work?"  
"Yes, indeed. She breaks nothing but the best china."

WILLING WORKERS SOCIETY  
OF FIRST M. E. CHURCH.

The Willing Workers Society of the First M. E. church will sell iced tea, sandwiches and home-made candy at the store of Foster H. Pointer Saturday afternoon from 2 to 6 o'clock. This band is supporting a scholarship for a little Chinese girl.

MISSES BESSIE AND CAROLEE  
SPEAKE ENTERTAINED AT  
CARDS FOR MISS CAROLYN  
PENNEY.

This morning the Misses Speake entertained charmingly at cards for Miss Penney of Birmingham, their guest.

INFORMAL AT HOME  
FOR MRS. J. E. PENNEY.

Wednesday afternoon Mrs. W. D. Speake invited the old friends of Mrs. J. E. Penney, to join her over a cup of tea. Many pleasant reminiscences were enjoyed.

Mrs. E. D. Whitman and little son, Emmett DeKalb, left today for a visit to relatives at Pontotoc, Miss.

Mrs. J. C. Orr and two children, who have visited friends and relatives in Albany, Trinity and Hartselle, have returned to their home in Birmingham.

Miss Bertha Cook, of Mt. Pleasant, Tenn., is visiting her brother, F. G. Cook.

Mrs. A. Bernstein is improving, after being confined to her home several days of illness.

Miss Katherine Hill left yesterday for Texas, where she probably will make her future home.

Mrs. Lanier Royer is reported quite ill at her home on Fourth avenue.

Mrs. C. M. Bullard has returned from Huntsville, where she was the guest of Mrs. A. S. Graham.

The Young People's Missionary society will meet tomorrow afternoon at 4 o'clock with Miss Trixie Scheer.

Summer school for conditioned pupils will be opened July 30.

Mr. and Mrs. Walter Todd are at their summer home on Courtland pike.

Mrs. Wilbur Smith, of Birmingham, is visiting her parents, Mr. and Mrs. G. Cortner.

Lena Burton Nelson, of Columbia, Tenn., is visiting Mrs. Annie K. Bartlett at Mooreville, for whom she is 'ing a fishing party today. Sanders Cortner and George Harvey are guests from Albany.

Mrs. D. W. Craig, of Little Rock, Ark., will arrive Saturday to visit her sisters, Mrs. J. W. Pipkin and Mrs. 'laud Galahar.

Tomorrow is the last day to pay your street tax. After tomorrow the tax will be \$4.10 instead of \$2.50. It

**Mrs. Payne Explains  
Funds Needed by  
Benevolent Hospital**

Editor Albany-Decatur Daily:

The board of trustees of the Benevolent society hospital appreciate to the fullest extent your generosity in devoting so much space in your valuable paper to the hospital campaign for funds. Indeed, you have always assisted us in every possible way in our hospital work.

However, your reporter in an article in yesterday's paper made some statements that might have given the impression to the public that the \$2,000 asked for was entirely for deficiency in the running expenses of the hospital. No doubt the mistake was due to the facts being given him over the telephone.

This amount—\$2,000—includes what is owing on our operating room equipment and sterilizer, the expense of building the roadway leading to the hospital, and to the mistake in not raising our prices as soon as war prices prevailed.

Every day the remark is made: "What did we ever do without the hospital?"

We earnestly hope that the people of Albany-Decatur will show their appreciation of the work that has been done by giving this amount and making it possible for us to continue.

Very truly yours,  
MRS. J. C. PAYNE

Mrs. Victor Heard and daughter, Francis, of Clanton, are visiting Judge and Mrs. O. Kyle.

Miss Jennie Kyle has returned from Biloxi, Miss.

Mrs. C. C. Teague, after a visit to friends and relatives here, has returned to her home at Mt. Pleasant, Tex.

## PERSONALS

Emmett Bennett, of Danville, was the guest of his aunt, Mrs. C. W. Williams, yesterday.

Louis Gelbke, proprietor of the Hotel Echels, will leave today for Columbus, Ga., on a visit to his daughter, and will return by way of Atlanta and Chattanooga on business.

D. E. Stith is improving after a severe illness.

L. E. Harrison is in Birmingham on business.

E. E. Graves, S. M. Thompson, Lamar Penney, A. H. Hoff and Stanley Wyatt arrived at Nashville, Tenn., last night at 10 o'clock, and left for Louisville, Ky., at 5:30 this morning. A fine trip is the report from the fast-driving automobile itinerants.

Mrs. Sam Schulman, who visited her parents, Mr. and Mrs. Sam Frank, returned to Pulaski Wednesday.

Miss Lellie Burleson has returned to Hartselle, after visiting relatives in Albany.

## Cook Building is Nearing Completion

The new building for Cook Bros. furniture store, just south of the post-office is rapidly nearing completion. The building, 50 by 100 feet in dimensions, will have two stories and a basement and will be one of the most modern structures in the city.

The front of the building, of white enameled brick, already presents an attractive view.

## Facts in Goethals Row Are Requested

(International News Service.)  
Washington, July 19.—The senate today asked the president for the facts about the Denman-Goethals shipping row, when it adopted a resolution unanimously calling for the information.

## Fifteen Are Fined For Taking Chance

Gamblers are having rough sailing in Decatur. Eighteen faced Mayor Jas. A. Nelson this morning on the charge of dice rolling, and 15 were given a fine each of \$8.00. The other three cases were postponed until tomorrow. The mayor and police force are making very effort to stamp out gaming in Decatur. In the last two weeks about forty have been fined for this offense.

Two other fines were imposed this morning for indecent conduct.

## RIVER RISING RAPIDLY.

The gauge on the river showed that it was 3.2 feet today. This is a rise of 3.8 feet in twenty-four hours. The official report says that the crest will be reached Sunday at a height of 15 feet.

Tomorrow is the last day to pay your street tax. After tomorrow the tax will be \$4.10 instead of \$2.50. It

## PUT MOTHER NOT BABY ON BOTTLE

You never heard this argument before. We all know mother's milk is best for baby. But what to give the mother to enable her to supply baby with a sufficient amount of nourishing milk is the problem.

We have found in hundreds of cases that HEMO is a nourishment that will increase the milk supply and at the same time enable mother to get much needed strength. Then too, it is so appetizing and delicious that it is welcomed at a time when most foods are not.

Thousands of doctors are prescribing HEMO because it gives the right nourishment and is so easily digested.

HEMO makes a delicious food drink by simply adding water.

We suggest that you try a 50c package with our guarantee of satisfaction.

Thompson Drug Store, Albany, and Owl Drug Co., Decatur.

## WHY SUFFER WITH BACKACHE, KIDNEYS OR RHEUMATISM NOW?

Letter Tells of Long-looked-for Prescription.

Dear Readers—If I can do any good in the world for others, I wish to do it, and I feel it is my duty to write about the wonderful results I received from the use of "Anuric." I was suffering from kidney and bladder troubles, scalding urine, backache and rheumatism, and feet and ankles swelled so that at times I could not walk without assistance. Had taken several different kinds of kidney remedies but all failed. I sent for a box of Dr. Pierce's newest discovery, "Anuric," which I received by mail in tablet form. I soon got better and am convinced that this popular new medicine is good. I wish to recommend it to my neighbors and everybody suffering from such troubles.

Mrs. M. J. SARGENT.

NOTE: You've all undoubtedly heard of the famous Dr. Pierce and his well-known medicines. Well, this prescription is one that has been successfully used for many years by the physicians and specialists at Dr. Pierce's Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for kidney complaints, and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine, and urinary troubles.

Up to this time, "Anuric" has not been on sale to the public, but by the persuasion of many patients and the increased demand for this wonderful healing Tablet, Doctor Pierce has finally decided to put it into the drug stores of this country within immediate reach of all sufferers.

Simply ask for Doctor Pierce's Anuric Tablets. There can be no imitation. Every package of "Anuric" is sure to be Dr. Pierce's. You will find the signature of the package just as you do on Dr. Pierce's Favorite Prescription, the ever-famous friend to ailing women, and Dr. Pierce's Golden Medical Discovery, proven by years to be the greatest general tonic and reconstructer for any one, besides being the best blood-maker known.

## STOP FOOD WASTE— Your Patriotic Duty

The food problem is one of the biggest that faces Uncle Sam today. Government experts have shown that we waste \$700,000,000 worth of food annually.

It is your patriotic privilege to help stop this waste. Bacteria, fostered by heat, are the real cause of food decay. Food must be kept in a temperature below 50 degrees. This is impossible if you keep your food in cellars, out of doors, or in cheaply built refrigerators.

The LEONARD CLEANABLE REFRIGERATOR will preserve your food longer and better. It saves ice, too. In the long run, it more than repays its cost. Ten insulating walls and automatic air-tight locks shut out heat effectively. The Leonard maintains a low, uniform temperature on the hottest days. Its fresh, ice-cold air circulation prevents odors. The only refrigerator with superb, pure white, porcelain lining extending clear around door frame and around edges of doors—the most sanitary arrangement—not a crack or crevice for food-destroying bacteria.

Made by GRAND RAPIDS REFRIGERATOR CO., Grand Rapids, Michigan  
"Largest Refrigerator Factory in the World"

ALBANY, ALA.

ALBANY, ALA.

## 58 Sunday School Boys Swim Daily

"Y" Pool Opened to Those Who Go All Month.

A happy band of boys may be found each evening between 2 and 5 o'clock at the Y. M. C. A., where they are taking advantage of the swimming pool. On Tuesday 58 boys made use of this fountain of youth. Yesterday 46 bathed in its cooling waters.

Another good thing these same boys are doing is to go to Sunday school each Sunday, for this is a prerequisite required by the Y. M. C. A. before the boys are allowed the privilege of the swimming pool free. A boy who attends Sunday school throughout one month may use the pool twice a week the next month. The boys now using the pool went to Sunday school during the month of June.

Dr. Thompson has an older person to watch the boys each day to keep them orderly and to rescue any boy in case of danger. The pool is bright and deep and just the place to take a nice swim.

## Big Corn Shellers Being Installed

Lyle-Taylor Prepare to Handle Morgan County Corn Crop.

The Lyle-Taylor Grain Company is installing machines to shell 4,000 bushels of corn per day and will be ready by August 1st to take care of the new crop of corn. This company is in position to handle any grain the farmer produces in any quantity, and is steadily enlarging and developing its facilities to meet the growing demands.

Only a few years ago the Lyle-Taylor Grain Co. opened its doors for business and immediately met with good success. Development has come steadily and the company meets demands on it for service as conditions arise that necessitate it.

WHEN in need of  
Printing see  
what we can  
do before you  
go elsewhere.

## FRANKLIN WAS A VEGETARIAN

Declares He Saved Money With Which to Buy Books and Gained by Reason of Clear-Headedness.

Franklin told us how to outwit the beef trust, save money, improve our health and enrich the brain all at one stroke. As nobody else could possibly tell it so well as Ben himself, I quote him, writes Girard in the Philadelphia Ledger.

"When about sixteen years of age I happened to meet with a book, written by one Tryon, recommending a vegetable diet. I determined to go into it. My brother, being yet unmarried, did not keep house, but boarded himself and his apprentices in another family.

"My refusing to eat flesh occasioned an inconvenience, and I was frequently child for my singularity. I made myself acquainted with Tryon's manner of preparing some of his dishes, such as boiling potatoes or rice, making hasty pudding and a few others, and then proposed to my brother that if he would give me weekly half the money he paid for my board, I would board myself. He instantly agreed to it, and I presently found that I could save half what he paid me.

"This was an additional fund for the buying of books, but I had another advantage in it. I made the greater progress from that greater clearness of head and quicker apprehension which generally attend temperance in eating and drinking."

And he kept on thinking so clearly that he was one of the most active creators of the constitution of the United States when he was eighty-one years old.

## SUPERSTITIONS OF THE MOON

Luck Depends Upon Various Lunar Stages, According to Many Popular Beliefs.

It is considered unlucky to see the new moon for the first time through glass. To see it outdoors over the left shoulder is lucky; over the right shoulder is unlucky.

Letters asking a favor should be written in the full of the moon. In fact, the full of the moon is lucky for all events. A birth or marriage in a full moon is indicative of prosperity.

It is considered unlucky to have the eyelashes cut during the wane of the moon. They will not grow well, but will grow away and fall out. To have them grow long they should be cut while the moon is on the increase.

Animals born when the moon is crescent-shaped will be weak and short-lived; those born at the full of the moon will be strong and long-lived.

Trees are thought likely to decay when cut during a waning moon. The bacon of a hog killed in a waning moon is also said to waste much in the cooking.

## First British Martyr.

St. Alban has the honor of being regarded as the first British martyr. The bloody persecution of Dioclesian, which raged in other parts of the Roman empire with such terrible fury that Dioclesian declared the Christians exterminated, was kept in check in Gaul and Britain by Constantine, who governed those provinces with almost regal authority. But some few are alleged to have suffered, and among them St. Alban was first. He sheltered a priest, whose name was Amphibalus, who is said to have converted him, and when he could conceal the priest no longer, he assisted his escape by changing clothes with him. For this act Alban was brought before the Roman governor, condemned and beheaded.

## How the Tornado "Works."

Pages of magazine and columns of newspaper space have been devoted to graphic and vivid, if not lurid, descriptions of the tornado in action, says the Kansas City Star. But William Soda, a farmer who never "writ" a line of literature in his life, expressed it all in a single short paragraph, in a perfectly clear and understandable way, when he was asked by a reporter about the twister that had made a complete wreck of his home:

"How long did the storm last?"  
"Feller," he replied, "I don't believe she worked more than two minutes, but while she worked she worked like the devil."

Any American can get that without a diagram.

## Aptitude.

My observation in life leads me to believe that nearly every human being has an aptitude; that is, there is something that he or she can do better than all other things. One in a hundred, again, has a remarkable aptitude, and in one in a thousand this aptitude is developed into something extraordinary. It then amounts to natural insight and constitutes genius. Now, a perfect system of education, if it could be devised, would be one which, while developing to the fullest extent all the faculties, would allow free play to the special aptitude. But this is just what our American school system fails to do, and does not aim at.—Autobiography of Charles Francis Adams.

## How Could He Know?

O. C.—Did you deliver that message?  
Billjm—Yessir.  
O. C.—Did you give it to an officer?  
Billjm—Dunno, sir.  
O. C.—You don't know the difference between an officer and a private?  
Billjm—Well, sir, 'e was in 'is bath, sir.—London Tit-Bits.

## RUB-MY-TISM

Will cure Rheumatism, Neuralgia, Headaches, Cramps, Colic Sprains, Bruises, Cuts, Burns, Old Sores, Tetters, Ring Worm, Eczema, etc. Antiseptic Anodyne, used internally or externally. 25c

## "Bone Dry" Has Reduced Number of Arrests in Albany and Decatur; More Money in Circulation

The "bone dry" law is evidently decreasing the number of arrests made for disorder and drunkenness in Albany and Decatur. Two days this week the mayor's courts did not even convene. When there are cases to be tried they are not for drunkenness, but for other transgressions of the law. Even on the Fourth of July not an arrest was made in either Albany or Decatur.

On the other hand, money seems to be flowing more freely for other things. The chiefs of police of both cities claim that citizens are quicker in paying their sanitary tax than ever before. Street taxes are being

paid more promptly this year than in previous years, according to the city clerks.

More money is being spent for amusements and pleasure. Automobiles are being bought by the car loads. One filling station in the city sold 500 gallons of gasoline last Sunday. It claims to average sales of 300 gallons, and about 12 gallons of engine oil each day. More money is being spent for amusements than before.

Whether money is more plentiful because it is not being spent for liquor or because of good times is a proposition left up to the individual to settle for himself.

## "Dollar" Jars to be Opened at Malone Garage Saturday Night

Did you ever see 2,000 silver dollars? Perhaps not, but you may have the opportunity Saturday evening at 8 o'clock if you happen to visit the Malone garage at that hour. The occasion will be the opening of the jars into which the dollars are dropped as

fast as they are collected by the ladies' committees that are working in the opportunity Saturday evening at 8 o'clock if you happen to visit the Malone garage at that hour. The occasion will be the opening of the jars into which the dollars are dropped as

## Army Drawing Tomorrow Morning

(Continued from Page One.)

bers from nought to ten, to determine the order in which the sheets of 1,000 each shall appear on the master list.

Second, a drawing of numbers from 1 to 1,000 to determine the order inside each group of 1,000. One group of numbers from 1 to 1,000 and a second from 0 to 10 have been carefully imprinted on slips of paper, black on one side, counted and checked. These slips have been rolled up and each put inside a gelatine capsule, with the black side out. These have been put in glass jars. The jars have been sealed and kept in a safe awaiting the day of drawing. The contents of the jars have been decanted into a large receptacle from which the capsules will be finally drawn by a blindfolded man. At the same time the capsules will be constantly stirred during the drawing. As the numbers are drawn they will be handed to an announcer who will break the capsule and announce the number drawn. To determine the order in which the thousands shall appear on the master list, the drawings of the numbers from 1 to 1,000 will take place. The master list will then be compiled by attaching 10 sheets of 1,000 each in the order determined by the drawing. The master numbers will then be sent to each of the 4,567 local boards, which will apply them to the local list and prepare the list of order of examination for the men in the group over which the particular board has jurisdiction. Each local board will by that time have been informed of the number of men it must furnish to make up its share of the 678,000 men necessary on the first call. Each local board will then notify 200 per cent of the men it must furnish to appear for examination and in so doing it will call them in the order thus determined by applying the master list to the local list. If at the calling of 200 per cent or if during the examination of the first 200 per cent it shall appear that the number thus called will not yield enough men to complete the quota, the board will keep on calling men in the order determined by the list of the order of examination until enough men have been called to fill the quota.

"E. F. CROWDER,  
"Provo" Marshal General."

There are all kinds of cheap printing—but none of it is really cheap—at least not on a basis of value. Cheap stuff is usually worth almost what it costs. Our printing isn't the cheapest you can get, but it's as good as the best.

Tomorrow is the last day to pay your street tax. After tomorrow the tax will be \$4.10 instead of \$2.50. It

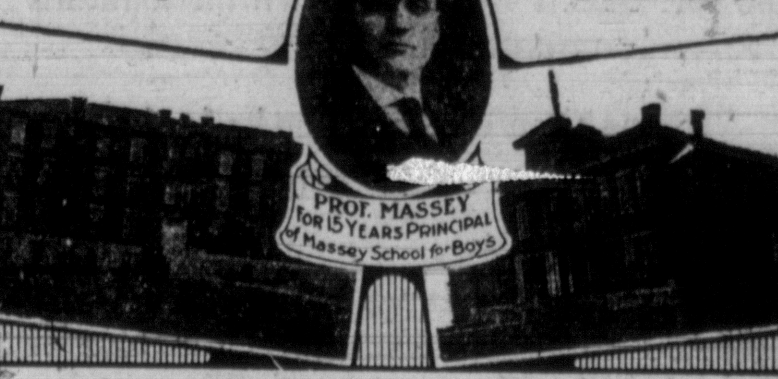

## MASSEY SCHOOL FOR BOYS PULASKI, TENNESSEE.

Massey Preparedness.

A seven-acre garden replete with good things to eat! Beans, corn, squash, tomatoes, sweet and Irish potatoes, and in fact, everything that grows in a good garden are in abundance. And our home canner outfit with an ample number of cans are all in readiness to prevent there being any hungry boys at Massey this term. Nor will there be any cold quarters for Massey boys as sufficient coal for the winter is already in the coal house.

Massey School has an enviable reputation for thoroughness and high standards—real development. Graduates are admitted without examination to leading colleges and universities of the U. S. Catalog or any information cheerfully sent upon request. Address,

F. M. MASSEY, Principal  
Pulaski, Tennessee.
